HEALTH REQUIREMENTS FOR 2006-2007

Dear Parents,

Illinois school regulations now require that all children entering **kindergarten,** **second** and **sixth grades** submit a Dental Examination Form, which you can download from Lab's web site. The form must be submitted by May 15th of the school year and must have been completed within 18 months of that date, i.e., between 11/05 and 5/07 for the 2006-2007 school year.

The requirements and the form are specific to the Illinois Department of Public Health. This means that your dentist must fill in this form and may not substitute any other forms. Once complete please submit it to the nurse's office or Blaine 107.

Thanks.

Sincerely,

Martha Baggetto, RN
Peter Page, RN
