Summer Lab
Geometry Teacher Recommendation

This should be filled out first by the parent and student.

Student Name: ___________________________________________________

Current Grade Level: _____________________________________________

Will Student Attend Lab in Fall 2018? _______Yes _______No

To Students and parents:

− We understand that time demands of this course are such that I, the student, should not plan to participate in any extracurricular or Summer School activities on weekdays during the entire six weeks.

− We understand that this is a for credit course that compresses a year of geometry into six weeks. This is not an "enrichment" course.

− We understand that if I, the student, miss two or more days of summer school that I will be dropped from the course.

− We understand that there is homework every night that regularly may exceed four hours.

− We understand that if the course is dropped after the first week (five classes), no refund is available. This includes dropping the course due to 2 or more absences.

Summer Geometry at Lab is a demanding, proof-based, high school level course. **This is not an enrichment course.** Students spend 4 hours a day in class, 5 days a week and must complete homework each night, which could take 2-4 or more hours.

In the space below, please comment on the student’s readiness for such a course, both academically and in terms of disciplined work habits and study skills.
