SummerLab
Summer 2022
At Lab, we know that learning is a year-round experience, which can, and should, take many forms. Our Summer Lab programs offer so many different opportunities for children to learn, connect, and discover—from sports and theatre to urban adventure and academics. The programs are fun and like everything at Lab, they are designed to inspire curiosity, creativity, and confidence in each child.

Summer Lab builds on over 70 years of summer programming at the University of Chicago Laboratory Schools. Summer Lab brings together the resources and faculty of the University of Chicago Laboratory Schools with exciting new programs offered by experts from across the city.

In an environment that focuses on kids, Summer Lab students and campers make new friends, learn new skills, play, make art, explore the environment, perform, and much, much more. All of this takes place in and around an unparalleled university setting that enriches our summer fun in incomparable ways and helps our Summer Lab children make the most of the promise of summer.

Summer Lab is open to all students and campers entering Nursery–grade 12. Students and campers may choose a single activity for all six weeks, or vary their schedule between the first three weeks (Session I) and the second three weeks (Session II). Mornings and afternoons offer additional opportunities for variety.

Join us!
At Summer Lab, love of learning never goes on vacation.
Summer Lab is guided by the University of Chicago Laboratory Schools’ mission, and enrollment is open to all students. The continuing challenges to which our distinguished faculty members rise each and every summer is to keep their material fresh, relevant, and truly engaging for their students. Their ability to do so is one key element—among many—that sets Summer School at Lab apart.

For Nursery–grade 2, classes will consist of approximately 16 students who will remain together for most of their day.

Grades 3–8 are able to select from a variety of camps and classes throughout the day.

Late Day is available to all children Nursery–grade 8 from 3:30–5:15 p.m.

Cost:
- Session I: $250
- Session II: $300

Please check meeting times and dates in each listing that follows, and feel free to contact the Summer Lab office with questions about structuring your child’s days:

summerlab@ucls.uchicago.edu

**COVID-19 Policies and Procedures**
Summer Lab prioritizes the health, safety, and well-being of its students, employees, and the broader community. In consultation with University partners and medical experts, Summer Lab will implement appropriate COVID mitigations this summer. Our policies will take into account guidance and directives from the Chicago Department of Public Health and current pandemic indicators. More information will be provided prior to the start of camp.

Nursery/Kindergarten
Nursery School
For children entering Nursery 3 or 4
Join us for an unforgettable kaleidoscope of summer fun with indoor and outdoor play and learning that will include science explorations, dramatic play, arts and crafts, stories, and movement. Daily water play in sprinklers will keep your child cool while having fun.
All children must be toilet trained prior to participating in Summer Lab.
Full Session: June 21–July 29
Full day: 8:15 a.m.–3:30 p.m.
Half day: 8:15 a.m.–12:15 p.m.
Instructors: Tomoko Hata, Vanessa Sepcot, and Emily Lopez
Cost: Full Day $3,500
Half Day $2,300

STEAM in the Sun
For children entering Kindergarten
In this STEAM-based Summer Lab program, your child will have the opportunity to cultivate an understanding, appreciation, and love of Science, Technology, Engineering, Art, and Math. Each week we will focus on and explore a component of STEAM, culminating in the sixth week of activities that combines the disciplines and allows your child to reflect on what they have learned. As your learner participates in inquiry-based exploration and investigation, this class will also emphasize their social and emotional development. This course will allow your child the opportunity to develop the essential skills needed to work and problem solve in cooperation with their peers. Your child will also be encouraged to verbalize their thinking and hone their presentation skills while building a positive self-image in a fun, play-based environment.
Full Session: June 21–July 29
Full day: 8:15 a.m.–3:30 p.m
Instructor: Nati Berenguer
Cost: Full Session $3,500

Acting Adventures
For children entering Kindergarten
Using the frameworks of legends, myths, fairy tales, and more, your child will learn the basics of acting, songwriting, singing, dance choreography, collaborative story development, crafting, puppetry, and improv. Your young performer will work together with classmates to create their own original story and performance while they gain these new, specialized skills. Come and tell modern stories, make new friends, and create big, wonderful shows. Wield a sword, fly to the sun, build a kingdom, live underwater, battle giants, and befriend beasts. Travel the universe! This camp culminates in a recorded performance for family and friends.
Session I: June 21–July 8; Theme—Legends of the Sea
Session II: July 11–July 29; Theme—It’s a Jungle Out There
Full day: 8:15 a.m.–3:30 p.m.
Instructor: Chicago Children’s Theatre
Cost: Session I $1,700
Session II $1,900

Story Time
For children entering Nursery 4 and Kindergarten
Calling all story lovers! We will spend our summer days together playing with stories. Your child will listen to stories every day, some that are read from a book and others that are retold using a felt board, small props, or puppets. We will experience stories in quiet spaces on a rainy day and then in big outdoor spaces, under trees, and in the gardens. After listening to stories, we will dive deeper and explore them further through art and sensory activities. As stories begin to unfold through the children’s play, teachers will record them in journals. These stories will be acted out during group meetings for all the children to enjoy. Students are welcome to sign up for both sessions as content will vary.
Session I: June 21–July 8
Session II: July 11–July 29
Full day: 8:15 a.m.–3:30 p.m.
Instructor: Jane Maciak
Cost: Session I $1,700
Session II $1,900

Kindergarten
For children entering Kindergarten
Summer Kindergarten is a time for children entering kindergarten to connect, play, and explore in this bridge from nursery to kindergarten. We will play in the garden and follow an emergent curriculum based on our learners’ experiences. Your camper will have time to run through sprinklers and enjoy the warmth of summer. Daily journaling, games, and stories will help them connect their nursery experience to their kindergarten year. Join us for a summer of fun!
Full Session: June 21–July 29
Full day: 8:15 a.m.–3:30 p.m
Instructors: Lisa Washington-Kuzel, Kristin Smith, and Kimberly Redman
Cost: Full Session $3,500

Grades 1–2
Focus on Learning to Read

**For children entering grade 1**
Is your child just beginning to put sounds together to form words? Taught by reading specialists, this class is designed for readers who continue to work on letter-recognition skills, sight-word memorization, or beginning blending skills. Your child will experience the Orton-Gillingham approach to learning how to read, which is structured, sequential, and multisensory. This class provides a foundation to jump into first-grade reading with confidence and will get your child excited about learning how to read. This class also has a rotation of sports, music, and art.

**Full Session:** June 21–July 29
**Full day:** 8:15 a.m.–3:30 p.m.
**Instructors:** Yolanda Navarrete and Foley Burckardt, Program Manager
**Cost:** Full Session $3,500

Literacy Lab

**For children entering grade 2**
Come have fun while learning with us and get excited about this reading and writing class! Taught by a reading specialist and classroom teachers, Literacy Lab will help your child solidify their reading skills. Your learner will receive a unique assessment to determine what skills will take them to the next level in their reading development. A focus will be on decoding, fluency, and reading books every day at your child’s level. One goal of the program is to improve the fluency of reading to make it smoother, faster, and more accurate. All learning will take place in small groups with peers at your child’s skill level. We will also have fun through interactive literacy activities including plays and hands-on activities to build reading and writing skills. The class curriculum is facilitated by specialists in Orton-Gillingham, the Wilson program, and the Lucy Calkins writing program. This class also has a rotation of sports, music, and art.

**Full Session:** June 21–July 29
**Full day:** 8:15 a.m.–3:30 p.m.
**Instructor:** Deidre Jordan
**Cost:** Full Session $3,500

Acting Adventures

**For children entering grades 1–2**
Using the frameworks of legends, myths, fairy tales, and more, your child will learn the basics of acting, songwriting, singing, dance choreography, collaborative story development, crafting, puppetry, and improv. Your young performer will work together with classmates to create their own original story and performance while they gain these new, specialized skills. Come and tell modern stories, make new friends, and create big, wonderful shows. Wield a sword, fly to the sun, build a kingdom, live underwater, battle giants, and befriend beasts. Travel the universe! This camp culminates in a recorded performance for family and friends. This class also has a rotation of sports, music, and art.

**Session I:** June 21–July 8
**Theme:** Legends of the Sea
**Full day:** 8:15 a.m.–3:30 p.m.
**Instructor:** Chicago Children’s Theatre
**Cost:** Session I $1,700, Session II $1,900

**Session II:** July 11–July 29
**Theme:** It’s a Jungle Out There
**Full day:** 8:15 a.m.–3:30 p.m.
**Instructor:** Samantha O’Malley and Foley Burckardt, Program Manager
**Cost:** Full Session $3,500

Explore Problem Solving

**For children entering grades 1–2**
**Mornings** Enrichment classes including sports, music, and art.

**Afternoons**
Robot Explorers is an interactive class that will put your child in the driver’s seat. It is an introduction to robotics designed to start at the very beginning, systematically teaching electronics, programming, and how to combine those skills to build a functional robot. Your learner will build robots that drive around on a tabletop, respond to light and other objects, move, detect obstacles, make sounds, and demonstrate lifelike behavior.

**Beginners/Intermediate Chess**
Develop your child’s intellect through the royal game of chess. Chess has been proven to enhance children’s motivation, concentration, focus, social skills, creativity, and academic performance. Both beginner and experienced players are welcome and will learn under the guidance of an experienced Chess Scholars coach.

**Session I:** June 21–July 8
**Session II:** July 11–July 29
**Full day:** 8:15 a.m.–3:30 p.m.
**Instructors:** Robot City Workshop and Chess Scholars
**Cost:** Session I $1,700, Session II $1,900
Challenge Yourself
For children entering grades 1–2

Mornings Enrichment classes including sports, music, and art.

Afternoons
Amazing Machines: An Introduction to Rube Goldberg Engineering
Students will design, build, and test various simple machines and learn how to chain them together into complex, interwoven Rube Goldberg devices. They will also learn about simple machines such as pulleys, levers, and inclined planes.

Robot Explorers is an interactive class that will put your child in the driver’s seat. It is an introduction to robotics designed to start at the very beginning, systematically teaching electronics, programming, and how to combine those skills to build a functional robot. Your learner will build robots that drive around on a tabletop, respond to light and other objects, move, detect obstacles, make sounds, and demonstrate lifelike behavior.

Session I: June 21–July 8
Session II: July 11–July 29
Full day: 8:15 a.m.–3:30 p.m.
Instructors: Robot City Workshop and Tony Mucia
Cost: Session I $1,700
Session II $1,900

Take the Stage
For children entering grades 1–2

Mornings Enrichment classes including sports, music, and art.

Afternoons
Dance Hyde Park School of Dance will expose your child to several different dance forms, exploring movement, music, and choreography. They will also be exposed to professional shows through films. Finally, we will create our own ballets and explore costume and set design.

Improv The Revival, Hyde Park’s improv comedy theater, is thrilled to bring improv to Summer Lab! Expect a warm, joyful, and supportive environment that celebrates each day with a variety of fun, “on-your-feet” games and exercises. Improv offers a wonderful opportunity for your learner to jumpstart creativity, develop new skills, and have fun.

Session I: June 21–July 8
Session II: July 11–July 29
Full day: 8:15 a.m.–3:30 p.m.
Instructors: Hyde Park School of Dance and The Revival
Cost: Session I $1,700
Session II $1,900

Skill Builders
For children entering grades 1–2

This half-day program will help your child develop and practice skills of strategy and planning by spending two hours on the game of chess and two hours learning how to build a mobile app.

Beginners/Intermediate Chess Chess has been proven to enhance children’s motivation, concentration, focus, social skills, creativity, and academic performance. Both beginner and experienced players are welcome and will learn under the guidance of an experienced Chess Scholars coach.

Build App Games During this part of your child’s day, they will learn the skills of game making through conceiving, designing, and creating their own mobile app games. The resulting games can be shared online and texted to friends for them to play on their phones. If your child loves Roblox or Minecraft, they will love this.

Session I: June 21–July 8
Session II: July 11–July 29
Half day: 8:15 a.m.–12:15 p.m.
Instructors: Chess Scholars and VineyardAppCamp
Cost: Session I $1,100
Session II $1,200
Grades 3–5

Intensive Reading and Writing
For children entering grades 3–4
Come have fun while learning with us this summer! We promise your child will get excited about this reading and writing class. Taught by a reading specialist along with classroom teachers, Intensive Reading and Writing is for learners who would benefit from more time to solidify reading accuracy, comprehension, and writing skills. One goal of the program is to improve your child’s fluency of reading to make it smoother, faster, and more accurate. Get ready for next school year by going beyond the reading of the words and learning to actively read to understand and engage in powerful book discussions with peers. In addition to reading, we will be expanding your learner’s writing skills, from idea development to spelling and writing mechanics.

Full Session: June 21–July 29
Half day: 8:15 a.m.–12:25 p.m.
Instructors: Valerie Grbavac and Foley Burckardt (Program Manager)
Cost: Full Session $2,300

Acting Adventures
For children entering grades 3–5
Using the frameworks of legends, myths, fairy tales, and more, your child will learn the basics of acting, songwriting, singing, dance choreography, collaborative story development, crafting, puppetry, and improv. Your young performer will work together with classmates to create their own original story and performance while they gain these new, specialized skills. Come and tell modern stories, make new friends, and create big, wonderful shows. Wield a sword, fly to the sun, build a kingdom, live underwater, battle giants, and befriend beasts. Travel the universe! This camp culminates in a performance for family and friends.

Session I: June 21–July 8
Theme: Legends of the Sea
Session II: July 11–July 29
Theme: It’s a Jungle Out There
Half day: 8:15 a.m.–12:25 p.m.
Instructor: Chicago Children’s Theatre
Cost: Session I $1,100
      Session II $1,200

Create an Artistic Masterpiece with LEGO® Robots
For children entering grades 3–5
Can a LEGO robot create a masterpiece of art? This course allows your budding roboticist to design, build, and code a robot to draw and paint their own artwork. Using a 3D printer, your camper will also learn how to model 3D shapes that will assist their robot to create art. Together, we will develop skills in robotics, craftsmanship, design, and technology.

Session I: June 21–July 8
Session II: July 11–July 29
Half day: 8:15 a.m.–12:25 p.m.
Instructor: Kenny Bae
Cost: Session I $1,100
      Session II $1,200

Beginners/Intermediate Chess
For children entering grades 3–5
Develop your child’s intellect through the royal game of chess. Current research shows a strong link between chess and academic performance in a variety of areas, including mathematics and language arts. Chess has been proven to enhance children’s motivation, concentration, focus, social skills, and creativity. Each class will consist of a fun, interactive teaching period and guided practice time. Both beginner and experienced players are welcome and will learn under the guidance of an experienced Chess Scholars coach.

Session I: June 21–July 8
Session II: July 11–July 29
Early Mornings: 8:15–10:15 a.m.
Afternoons: 1:30–3:30 p.m.
Instructor: Chess Scholars
Cost: Session I $550
      Session II $600

Advanced Chess
For children entering grades 3–5
In this class we will study and learn from the games of grandmasters and world chess champions alike. We will learn about controlling the center, taking the initiative, and how to attack in combination. In addition, your child will study the secrets of openings like the Queen’s Gambit, Spanish, and Italian, and learn middle-game strategies and endgame tactics. There will also be a chess competition with prizes at the end of the session! Your child will also receive a participation award and a chess keychain.

Session I: June 21–July 8
Session II: July 11–July 29
Late Mornings: 10:25 a.m.–12:25 p.m.
Instructor: Chess Scholars
Cost: Session I $550
      Session II $600
Dance
For children entering grades 3–5
Hyde Park School of Dance is offering a dance class that will expose your child to several different dance forms. Your young dancer will explore movement, music, and choreography through classes and guided projects. They will also be exposed to professional shows through films that will be presented periodically. Finally, we will create our own ballets and explore costume and set design.

Session I: June 21–July 8
Session II: July 11–July 29
Early Mornings: 8:15–10:15 a.m.
Instructor: Hyde Park School of Dance
Cost: Session I $550
Session II $600

Improv
For children entering grades 3–5
The Revival, Hyde Park’s improv comedy theater, is thrilled to bring improv to Summer Lab this year! Your child can expect a warm, joyful, and supportive environment that celebrates each day with a variety of fun, “on-your-feet” games and exercises. The Revival’s instructors are among the best in Chicago with a wealth of classroom and stage experience. Improv with The Revival offers a wonderful opportunity for your learner to jumpstart creativity, develop new skills, and have fun.

Session I: June 21–July 8
Session II: July 11–July 29
Late Mornings: 10:25 a.m.–12:25 p.m.
Instructor: The Revival
Cost: Session I $550
Session II $600

Hi-Five Sports
For children entering grades 3–5
For you, it’s all about keeping your child active, healthy, and happy. For them, it means no school, lots of fun, and sports all summer long! And that’s exactly what we’re all about at Hi-Five Sports Camp Chicago, offering a full menu of team sports including soccer, basketball, and baseball. Hi-Five Sports Camp Chicago is about so much more than winning and losing—it is about teamwork, playing hard, and playing fair. And it is about your child making new buddies and enjoying camaraderie. We are a camp that is as encouraging as it is challenging, as safe as it is high energy, and as instructional as it is fun.

Session I: June 21–July 8
Session II: July 11–July 29
Early Mornings: 8:15–10:15 a.m.
Late Mornings: 10:25 a.m.–12:25 p.m.
Afternoons: 1:30–3:30 p.m.
Instructor: Hi-Five Sports Camp
Cost: Session I $550
Session II $600

Life Crafts
For children entering grades 3–5
Does your child enjoy crafting or doing creative DIY projects? Have they ever thought about making a portrait of your beloved family pet out of Perler beads? Did they know that they could make a beautifully woven bag on a cardboard loom? Sign your crafter up for this class if they like sewing and making small felt crafts, or designing animal habitats out of cardboard, hot glue, and recyclables. One day per week is reserved for student-led workshops, an opportunity for crafters to learn from one another and cultivate their imaginations! We will learn basic art concepts, receive guided instruction, and experiment with a variety of art materials.

Session I: June 21–July 8
Session II: July 11–July 29
Early Mornings: 8:15–10:15 a.m.
Instructor: Marlease Bushnell
Cost: Session I $550
Session II $600

iPad Photography
For children entering grades 3–5
Photography is a method of image-making with a rich history and a wide range of tools used to capture fleeting moments. As advances in technology continue to change how we do things, iPads provide a wealth of possibilities when we use them to take pictures. iPad Photography is a photo class where every step of the process is done on the tablet, from initially taking the picture, to basic editing or even dramatically manipulating the image, to saving and organizing the work produced. Your young photographer will learn how to take an in-focus, properly exposed photograph; explore themes and concepts like composition and story-telling; and use editing apps to refine their images and create unique works of art.

Session I: June 21–July 8
Session II: July 11–July 29
Early Mornings: 8:15–10:15 a.m.
Instructor: Candice Latimer
Cost: Session I $550
Session II $600
**Grades 3–5**

**Weaving Textile Art**  
*For children entering grades 3–5*  
Get crafty this summer learning how to weave unique fabric! In this class, your child will learn the basics of the loom, different weaving techniques, and how to create 2D and 3D objects with their fabric. We will be exploring the natural world as we learn the history of weaving and how to create weavings from uncommon objects! This class creates a fun environment for your child to work with their hands as they explore their creativity.  

**Session I:** June 21–July 8  
**Late mornings:** 10:25 a.m.–12:25 p.m.  
**Instructor:** Firefly Fiber Arts Studio  
**Cost:** Session I $550  

**Session II:** July 11–July 29  
**Late mornings:** 10:25 a.m.–12:25 p.m.  
**Instructor:** Firefly Fiber Arts Studio  
**Cost:** Session II $600

**The Magic of Knitting**  
*For children entering grades 3–5*  
Learn the magic of handcrafting your own accessories and garments by knitting! In the first week, your child will learn the basics of knitting and fabric construction. Then they will learn the knit stitch and purl stitch, along with information about the different types of yarn that is created and used by crafters. During the second week, your knitter will learn how to plan and execute a personal project that plays with color, texture, and shapes for their customized creation. For the last week, we will work together to design and create a public works project that will be displayed for the community! This class is open to students who already know how to knit and to students who want to learn!  

**Session I:** June 21–July 8  
**Late mornings:** 10:25 a.m.–12:25 p.m.  
**Instructor:** Firefly Fiber Arts Studio  
**Cost:** Session I $550

**The Ecology within Dungeons and Dragons (Beginners/Intermediate)**  
*For children entering grades 3–5*  
Join us on a fantastical, imaginary voyage around the globe to discover and document magical wonders of the natural world. In this class, we will play Dungeons and Dragons (D&D 5e) but with a focus on nature and ecological exploration. While playing Dungeons and Dragons, your young adventurer will learn teamwork, creative problem solving, storytelling, and math, as well as real-world examples from nature, biology, geography, and history.  

In this “Advanced” class, we focus more on the rules of D&D while still exploring ecology. We recommend the Advanced class if your child is already familiar with the rules of D&D and wants a more challenging experience. Your hero will encounter more complex puzzles, strategic monsters, creative roleplay, and involved science lessons than in the Intermediate/Beginner class.  

**Session I:** June 21–July 8  
**Session II:** July 11–July 29  
**Late mornings:** 10:25 a.m.–12:25 p.m.  
**Instructor:** Colin Kyle  
**Cost:** Session I $550  
**Session II $600**

**Globetrotters: Geography Near & Far**  
*For children entering grades 3–5*  
Take a journey around the globe and discover cool things about small towns, bustling cities, small islands, and the vast regions of forest and frozen tundra around the world! Learn how to read a map, make heads or tails of a compass, and recognize flags from places far and near! Your explorer will use atlases, books, and various online resources to gain an understanding of scale, direction, latitude, and longitude while learning the names of the world’s continents and how to use grid lines and symbols to locate places on a map. We will design travel brochures, create mini country maps, and participate in a weekly geography scavenger hunt!  

**Session I:** June 21–July 8  
**Session II:** July 11–July 29  
**Late mornings:** 10:25 a.m.–12:25 p.m.  
**Instructor:** Marlease Bushnell  
**Cost:** Session I $550  
**Session II $600**
Ceramics
For children entering grades 3–5

Spend lovely summer afternoons in Lab’s own clay studio! We will work through hand-building techniques, like pinching, coiling, and slabs, to make sculptural objects and useful vessels. Your artist will learn about the stages of clay and how to make an object that survives drying without breaking. Some time is given for playing and experimenting with surface treatment and decoration. The instructor will fire the clay pieces in the kiln to finish them before your child gets to take their artwork home.

Session I: June 21–July 8
Session II: July 11–July 29
Afternoons: 1:30–3:30 p.m.
Instructor: Candice Latimer
Cost: Session I $550
     Session II $600

Third Grade Math Explorers
For children entering grade 3

This class will provide a fast-paced and challenging experience for your child to advance their math skills. Topics will range from multi-digit operations, fraction and mixed number operations, measurement, and data analysis using a variety of graphs, as well as two- and three-dimensional geometry. Your child will use their math skills to solve word problems. Team competitions, board games, and iPad apps will provide additional excitement as well as practice!

Session I: June 21–July 8
     Early Mornings: 8:15–10:15 a.m.
Session II: July 11–July 29
     Afternoons: 1:30–3:30 p.m.
Instructor: Julia Kornienko
Cost: Session I $550
     Session II $600

Reading Rockstars
For children entering grade 5

This class will focus on honing the analytical reading and writing skills your child will need as their reading class advances. Students in grade 5 need to know how to “look beyond” the text; this includes the skills of analyzing a character’s thoughts and actions, determining the author’s purpose and point of view, identifying key literary elements within a text, and expressing different thoughts and ideas through critical writing. Your child’s growth and understanding will be monitored throughout the summer while they encounter a variety of readings: fiction & non-fiction passages, readers theater, poetry, and novel excerpts. As your child grows as a reader, they need to practice higher-level thinking skills; this class is designed to further introduce these skills and allow your reader to practice them before the start of their academic year.

Session I: June 21–July 8
Session II: July 11–July 29
Late Mornings: 10:25 a.m.–12:25 p.m.
Instructor: Be Able Learning Services
Cost: Session I $550
     Session II $600

Adventures in Third Grade Math
For children entering grade 3

This class is designed to provide review and practice to strengthen key areas with proficiency as the goal. The first objective is to gain mastery of the times table and understand how it relates to division. Next, we will explore fractions and basic operations. Telling time and finding elapsed time will be covered as well. Another activity will be creating bar graphs from data students collect from their daily standing jump. Finally, we will explore two-dimensional geometry where your student will categorize and analyze in order to compare and contrast different polygons. Hands-on activities, team competitions, and iPad game apps will provide additional practice in a fun and engaging way!

Session I: June 21–July 8
Session II: July 11–July 29
Afternoons: 1:30–3:30 p.m.
Instructor: Be Able Learning Services
Cost: Session I $550
     Session II $600

Math Prep
For children entering grade 5

Middle school is just around the corner! Fifth grade is the last year for students to solidify their foundational skills before making that jump. We will review fourth grade concepts such as adding and subtracting fractions, factors and multiples, decimals and percents, and basic geometry. We will also preview fifth grade topics including multiplying and dividing fractions, decimal computation, and numerical expressions. Your child will be exposed to a variety of math tools to support their learning: manipulatives, math games, and written notes and visuals. Your learner’s progress will be monitored throughout the summer to track growth and understanding. This class will ensure your rising fifth grader starts off the new school year on the right foot.

Session I: June 21–July 8
Session II: July 11–July 29
Afternoons: 1:30–3:30 p.m.
Instructor: Be Able Learning Services
Cost: Session I $550
     Session II $600
Fourth Grade Math Explorers
For children entering grade 4
This class will provide an exciting, fast-paced experience for your learner who wants to challenge themselves to reach new heights in math! Multi-digit operations, working with fractions and mixed numbers, decimals, percentages as well as two- and three-dimensional geometry will be covered. Your child will gather data and learn how to display and interpret the information by creating graphs. Basic algebra will conclude the session. Team competitions, board games, and iPad apps will provide additional practice and excitement to the daily lesson!

**Session I:** June 21–July 8
**Afternoons:** 1:30–3:30 p.m.
**Instructor:** Julia Kornienko
**Cost:** Session I $550

**Session II:** July 11–July 29
**Early Mornings:** 8:15–10:15 a.m.
**Instructor:** Chicago Children’s Theatre
**Cost:** Session II $600

Adventures in Fourth Grade Math
For children entering grade 4
The goal of this class is to provide review and practice to strengthen important math skills, namely multi-digit operations, understanding and working with fractions and mixed numbers, gathering data, and creating graphs to interpret information. We will explore two-dimensional geometry and categorize, analyze, and compare polygons. Team competitions, board games, and iPad apps will provide additional practice and excitement to the class!

**Session I:** June 21–July 8
**Afternoons:** 1:30–3:30 p.m.
**Instructor:** Julia Kornienko
**Cost:** Session I $550

**Session II:** July 11–July 29
**Early Mornings:** 8:15–10:15 a.m.
**Instructor:** Julia Kornienko
**Cost:** Session II $600

Acting & Movement: Scene Creation
For children entering grades 3–5
Act, move, and dance in this lively theatre class for young performers! Through movement-based drama activities, improv games, and physical theatre, your performer will build confidence in expressing their creative side, while expanding motor skills. At the end of class, we will share some of our favorite scenes with family and friends!

**Session I:** June 21–July 8
**Afternoons:** 1:30–3:30 p.m.
**Instructor:** Chicago Children’s Theatre
**Cost:** Session I $550

**Session II:** July 11–July 29
**Afternoons:** 1:30–3:30 p.m.
**Instructor:** Chicago Children’s Theatre
**Cost:** Session II $600

Acting & Movement: Musical Medley
For children entering grades 3–5
Act, move, and dance in this lively theatre class for young performers! Through movement-based drama games, character-building activities, and dance, your child will build confidence in expressing their creative side, while expanding motor skills through rhythm. At the end of class, we will share some of our favorite scenes with family and friends!

**Session I:** June 21–July 8
**Early Mornings:** 8:15–10:15 a.m.
**Instructor:** Chicago Children’s Theatre
**Cost:** Session I $550

**Session II:** July 11–July 29
**Afternoons:** 1:30–3:30 p.m.
**Instructor:** Chicago Children’s Theatre
**Cost:** Session II $600

Game Makers
For children entering grades 3–5
Ever wanted to build your own games or apps? Love Roblox or Minecraft? Well, this is the camp for you! In this camp, your child will learn the skills of a game maker through conceiving, designing, and creating their own mobile app games. The resulting games can be shared online and texted to friends for them to play on their phones. It’s a great way to combine learning with fun while becoming a true game developer.

**Session I:** June 21–July 8
**Early Mornings:** 8:15–10:15 a.m.
**Instructor:** VineyardAppCamp
**Cost:** Session I $550

**Session II:** July 11–July 29
**Early Mornings:** 8:15–10:15 a.m.
**Instructor:** VineyardAppCamp
**Cost:** Session II $600
**Whitehat Hacking and Cybersecurity**  
*For children entering grades 3–5*

Have you ever wanted to be a hacker? Or wanted to learn how to code? On the Internet these days, it’s important to understand how hackers work so you can stay safe from them. In this specialty camp, your child will learn how to “hack” through fun coding (and code-breaking) games. They’ll learn about the three main methods hackers use, hack fake websites we set up, and learn how to stay safe online. Finally, we’ll examine the cybersecurity for a real local business and give them recommendations on how to improve. Get ready to have fun breaking things!

**Session I:** June 21–July 8  
**Late Mornings:** 10:25 a.m.–12:25 p.m.  
**Session II:** July 11–July 29  
**Early Mornings:** 8:15–10:15 a.m.  

**Instructor:** VineyardAppCamp  
**Cost:** Session I: $550  
Session II: $600

---

**App Makers with Coding**  
*For children entering grades 3–5*

Have you ever wanted to make your own websites and apps? In this innovative hands-on coding and tech camp, your young programmer will learn the skills of a coder and the mindset of an entrepreneur through building apps—their own app and also an app for local nonprofits. We’ll build apps and games every week in the course and work on real iOS apps. Previous students have been covered in multiple local news outlets for apps they’ve built for homeless shelters, veterinarians, and local climate nonprofits!

**Session I:** June 21–July 8  
**Early Mornings:** 8:15–10:15 a.m.  
**Afternoons:** 1:30–3:30 p.m.  

**Session II:** July 11–July 29  
**Late Mornings:** 10:25 a.m.–12:25 p.m.  

**Instructor:** VineyardAppCamp  
**Cost:** Session I $550  
Session II $600

---

**Real World Graphic Design**  
*For children entering grades 3–5*

Interested in drawing, art, or design? In this camp, your young artist will learn how to use their doodling skills by doing design projects for local nonprofits or small businesses. They will learn how to make professional posters and art that people want to pay for, and we’ll ultimately design posters and ads for real organizations with good causes. Our students’ work has been used in ads and online Instagram posts by the Special Olympics, Martha’s Kitchen, and local shelters.

**Session I:** June 21–July 8  
**Late Mornings:** 10:25 a.m.–12:25 p.m.  
**Session II:** July 11–July 29  
**Afternoons:** 1:30–3:30 p.m.  

**Instructor:** VineyardAppCamp  
**Cost:** Session I $550  
Session II $600
Adventure Kids Day Camp
For children entering grades 3–8

Full Session: June 21–July 29
Session I: June 21–July 8
Session II: July 11–July 29
Full day: 8:15 a.m.–3:30 p.m.
Program Manager: Meghan Janda
Cost: Full Session $3,500
Session I $1,700
Session II $1,900

Adventure Kids Day Camp offers a safe, high-energy, and rewarding program based on core values of trust, communication, and teamwork. Throughout this experience, campers and staff alike enhance their cooperative skills, self confidence, and leadership qualities. Every day is jam packed with fun where lasting friendships are forged and indelible memories are made.

Field Trips are back!
Campers will revisit favorite field trips around the Chicagoland area. We will also continue to use our very own beautiful campus for adventures. Water parks, lakefront adventures—like sailing and kayaking, beach trips, amusement parks, and other great Chicago-area attractions are among some of the trips we have taken in years past. Campers will go on one off-campus, age-specific field trip and one walking adventure per week.

Camps in grades 6–8 will have an opportunity to attend our traditional overnight camping trip to Camp Duncan in July. In addition to experiencing all of the adventures of camping, they will also participate in boating, blobbing, zip-lining, rock climbing, and high ropes courses. This is definitely a highlight of summer!

Swimming
We are excited to partner with M3 Aquatics to provide an excellent swim program including lessons for children of all ability levels. The swim program will have low student-teacher ratios to ensure each child gets individualized attention while learning team-building skills. Campers will participate in a balanced aquatics experience, including games, lessons, workouts, and FUN!

Adventure Kids Sports
We offer a variety of sports and fun activities based on our weekly themes. From basketball and pickleball, to the ever-so-popular game of Quidditch, AK takes full advantage of our awesome facilities including multiple gyms, fields, playgrounds, pool, tennis courts, and more. Consistent with the core Adventure Kids values, all activities promote an all-inclusive and cooperative group dynamic.

AK Camp Idol and other Special Events
AK Camp Idol is our end-of-session showcase of talents. Groups work together to develop creative, energetic, and fun dance routines and other varying talents that they perform on the last day of the session in front of their fellow campers, staff, and an energetic crowd of fans. Other special events include Luaus, Game Show Days, Halloween in July (parade with marching band included), Flea Markets and more.

Theme Weeks—20+ years of themes reinvented!
This year we celebrate 20+ years of AK fun! Some of our favorite themes from years past include: Under the Sea, Chicago, Jungle Safari, and Rock and Roll. These, and many more, will come back to life with some 2022 pizazz.

Arts and Crafts/STEM
Campers participate in themed projects in our on-site creativity center. We have put an AK creative twist on some of the traditional arts and crafts projects, STEM challenges, and digital resources, although friendship bracelets will always be a camp favorite!

Specialty Classes
Campers will participate in all that our supervisors and specialists have to offer. Some examples are cooking challenges, spa-day, gardening, science experiments, yoga, music, dance, sports conditioning, and more! Some specialty classes specifically offered to older groups include an opportunity to participate in specialty units in outdoor adventures. Some of these options include fishing, paddle boarding, visits to Hyde Park’s historic lakefront treasure, The Point, and campus orienteering adventures.

AK Music Programming
Lab’s very own music teachers will lead AK through a variety of music awareness and exploration. Some favorites include group ukulele lessons, bucket drumming, digital music videos, and much more.
**Grades 6–8**

**Beginners/Intermediate Chess**  
*For children entering grades 6–8*  
Develop your child’s intellect through the royal game of chess. Current research shows a strong link between chess and academic performance in a variety of areas, including mathematics and language arts. Chess has been proven to enhance children’s motivation, concentration, focus, social skills, and creativity. Each class will consist of a fun, interactive teaching period and guided practice time. Both beginner and experienced players are welcome and will learn under the guidance of an experienced Chess Scholars coach.  

- **Session I:** June 21–July 8  
- **Session II:** July 11–July 29  
- **Early Mornings:** 8:15–10:15 a.m.  
- **Afternoons:** 1:30–3:30 p.m.  
- **Instructor:** Chess Scholars  
- **Cost:** Session I $550, Session II $600

**Hi-Five Sports Camp**  
*For children entering grades 6–8*  
For you, it’s about keeping your child active, healthy, and happy. For them, it means no school, lots of fun, and sports all summer long! And that’s exactly what we’re all about at Hi-Five Sports Camp Chicago, offering a full menu of team sports including soccer, basketball, and baseball. Hi-Five Sports Camp Chicago is about so much more than winning and losing—it is about teamwork, playing hard, and playing fair. And it is about your child making new buddies and enjoying camaraderie. We are a camp that is as encouraging as it is challenging, as safe as it is high energy, and as instructional as it is fun.  

- **Session I:** June 21–July 8  
- **Session II:** July 11–July 29  
- **Early Mornings:** 8:15–10:15 a.m.  
- **Late Mornings:** 10:25 a.m.–12:25 p.m.  
- **Afternoons:** 1:30–3:30 p.m.  
- **Instructor:** Hi-Five Sports Camp  
- **Cost:** Session I $550, Session II $600

**The Magic of Knitting**  
*For children entering grades 6–8*  
Learn the magic of handcrafting your own accessories and garments by knitting! In the first week, your child will learn the basics of knitting and fabric construction. Then they will learn the knit stitch and purl stitch, along with information about the different types of yarn that is created and used by crafters. During the second week, your knitter will learn how to plan and execute a personal project that plays with color, texture, and shapes for their customized creation. For the last week, we will work together to design and create a public works project that will be displayed for the community! This class is open to students who already know how to knit and to students who want to learn!  

- **Session I:** June 21–July 8  
- **Early Mornings:** 8:15–10:15 a.m.  
- **Instructor:** Firefly Fiber Arts Studio  
- **Cost:** Session I $550

**Painting with Plants**  
*For children entering grades 6–8*  
Unlock the creative world of plants! Learn how we can paint, dye, and print with plants! In this class, we will learn how to make watercolor paints from plants, how to dye fabric with plants, and how to create paintings, drawings, and prints with plants! Your young artist will be encouraged to explore all the ways they can use nature to be creative! Your child does not need to know how to draw or paint to take this class. This class is designed to get your learner to use their hands to think creatively about the world around them.  

- **Session II:** July 11–29  
- **Early Mornings:** 8:15–10:15 a.m.  
- **Instructor:** Firefly Fiber Arts Studio  
- **Cost:** Session II $600

**Dungeons & Dragons Adventures**  
*For children entering grades 6–8*  
In this camp, your young hero will work cooperatively together with peers and use creative problem-solving skills while playing the Dungeons & Dragons roleplaying game. When not adventuring, your camper may spend time using computers to research and develop their characters, or they may participate in other fantasy-themed games or physical activities. Both beginners and experienced players are welcome.  

- **Session I:** June 21–July 8  
- **Session II:** July 11–July 29  
- **Early Mornings:** 8:15–10:15 a.m.  
- **Instructor:** Matt Maciak  
- **Cost:** Session I $550, Session II $600
Grades 6–8

Poetry & Podcasting
For children entering grades 6–8
Do you love reading and writing poetry? Do you have a desire to share your ideas with a wider audience? In this class, your young poet will read and discuss a variety of poems and review their knowledge of literary elements and poetic techniques. We will also write our own poems inspired by the works we read and walks we take through the Hyde Park neighborhood. Meanwhile, your child will learn the basics of podcasting and listen to models of poetry podcasts, like Poetry Unbound and Poem Talk. As a final project, you will produce your own podcast in which you recite a poem and share your commentary about it.

**Session I:** June 21–July 8
**Early Mornings:** 8:15–10:15 a.m.
**Instructor:** Benjamin Tress
**Cost:** Session I $550
**Session II** $600

Mathematics and Problem Solving
For children entering grades 6–8
This course will provide a review of middle school math concepts and an introduction to problem solving. Your child will work independently and collaboratively on interesting problems and complex projects that will deepen their understanding of mathematics. This course is not a replacement for grade-level mathematics instruction at Lab.

**Session I:** June 21–July 8
**Session II:** July 11–July 29
**Early Mornings:** 8:15–10:15 a.m.
**Instructor:** Jessica Hanzlik
**Cost:** Session I $550
**Session II** $600

Darkroom Photography
For children entering grades 6–8
Did you know that the literal meaning of the word “photograph” is “light picture”? As technological advances in image-making continue to change the way we do things by offering a wealth of options and conveniences, it’s important to look back at the rich history of traditional methods and equipment used to create light pictures. Every part of making a digital photo is a simulation of the analog process that creates a physical photographic print. This class takes your learner into Lab’s own darkroom to teach them in a tactile way about the relationship between light and time, and how those two things come together to create a photograph. Your young photographer will take pictures on film using a manual camera, and then print on real black-and-white photo paper and make physical photographs that they can take home.

**Session I:** June 21–July 8
**Session II:** July 11–July 29
**Late Mornings:** 10:25 a.m.–12:25 p.m.
**Instructor:** Candice Latimer
**Cost:** Session I $550
**Session II** $600

Advanced Chess
For children entering grades 6–8
In this class we will study and learn from the games of grandmasters and world chess champions alike. We will learn about controlling the center, taking the initiative, and how to attack in combination. In addition, your child will study the secrets of openings like the Queen’s Gambit, Spanish, and Italian, and learn middle-game strategies and endgame tactics. There will also be a chess competition with prizes at the end of the session! Your child will also receive a participation award and a chess keychain.

**Session I:** June 21–July 8
**Session II:** July 11–July 29
**Late Mornings:** 10:25 a.m.–12:25 p.m.
**Instructor:** Chess Scholars
**Cost:** Session I $550
**Session II** $600

Hoopin’ It Up
For children entering grades 6–8
In this camp, your athlete will participate in a variety of basketball-themed activities, including drafting their own fantasy teams to use in a statistically-based board game and playing basketball in the gym. While having fun, campers will utilize executive functioning, math calculation, and computer spreadsheet skills.

**Session I:** June 21–July 8
**Session II:** July 11–July 29
**Late Mornings:** 10:25 a.m.–12:25 p.m.
**Afternoons:** 1:30–3:30 p.m.
**Instructor:** Matt Maciak
**Cost:** Session I $550
**Session II** $600
Poetry and Hip Hop: The Art of Storytelling  
*For children entering grades 6–8*

What is the connection between *Hamilton*, hip hop, and Shakespeare’s sonnets? We will analyze the meaning and craft of hip-hop lyrics and poetry by various artists and poets such as Nikki Giovanni, Common, Maya Angelou, OutKast, and William Shakespeare to name a few. We will explore the parallels of poetry and hip hop and use imagery and rhythm to give voice to our own unique and powerful stories.

**Session I:** June 21–July 8  
**Late Mornings:** 10:25 a.m.–12:25 p.m.  
**Afternoons:** 1:30–3:30 p.m.  
**Instructor:** Kelly Washington  
**Cost:** Session I $550

Create an Artistic Masterpiece with LEGO® Robots  
*For children entering grades 6–8*

Can a LEGO robot create a masterpiece of art? This course allows your budding roboticist to design, build, and code a robot to draw and paint their own artwork. Using a 3D printer, your camper will also learn how to model 3D shapes that will assist their robot to create art. Together, we will develop skills in robotics, craftsmanship, design, and technology.

**Session I:** June 21–July 8  
**Session II:** July 11–July 29  
**Afternoons:** 1:30–3:30 p.m.  
**Instructor:** Kenny Bae  
**Cost:** Session I $550, Session II $600

Interconnections  
*For children entering grades 6–8*

Tap into the power of connection. This course will focus on cultivating DEI relationships that establish social awareness and enhance community involvement. Through respect, grace, and courtesy, your child will be led on a journey of self-discovery, empowerment, and action. The lessons focus on social inclusivity and encourage your learner to express themself through different facets of Language Arts. Your child will be introduced to new vocabulary, reading, and writing as a basis for storytelling, improvisation, conflict resolution, and leadership. They will explore real-life scenarios through discussion, role-play, reflection, and practical applications.

**Session I:** June 21–July 8  
**Session II:** July 11–July 29  
**Afternoons:** 1:30–3:30 p.m.  
**Instructor:** Innovative Art and Education  
**Cost:** Session I $550, Session II $600

Animation and the Humanities  
*For children entering grades 6–8*

Your learner will become familiar with a variety of animation episodes spanning the last one hundred years of animation while learning to talk and write about them through a different lens of the Humanities. This course will focus on helping your child communicate and express themself in writing. We will practice making and solidifying “arguments” related to subjects which include comparing and contrasting, character development, and plot analysis. Your learner will improve their writing with frequent exercises which will both practice and strengthen their written voice. Ultimately, this session will support your learner by helping them develop more confidence and familiarity with the writing process, through an age-appropriate medium that many middle school students enjoy.

**Session I:** June 21–July 8  
**Session II:** July 11–July 29  
**Early Mornings:** 8:15–10:15 a.m.  
**Instructor:** Deb Foote  
**Cost:** Session I $550, Session II $600

Executive Functioning & Study Skills  
*For children entering grade 6*

This class is designed to teach your child the key executive-functioning strategies and study skills needed for success in school and daily life—how to keep their materials organized, how to manage their time, and how to properly study for tests and exams. We’ll also cover how to be adaptable and flexible with their thinking, how to set realistic goals, and how to self-monitor to make sure they are on track to achieve those goals. We will use an evidence-based executive-functioning curriculum designed specifically for pre-teens and teens, as well as interactive activities and games, to develop your child’s executive functioning and study skills.

**Session I:** June 21–July 8  
**Session II:** July 11–July 29  
**Early Mornings:** 8:15–10:15 a.m.  
**Instructor:** Be Able Learning Services  
**Cost:** Session I $550, Session II $600
Summer Lab Musical Workshop: Madagascar A Musical Adventure Jr.
For children entering grades 6–8

Your red carpet to a great summer of music, dance, acting, fun, and friends! Join all your favorite Madagascar characters—Alex the lion, Melman the giraffe, Marty the zebra, Gloria the hippo, and those plotting penguins. Develop skills in the performing arts, build creativity, teamwork, and self-esteem. Our mornings will be focused on forming a true ensemble, educating ourselves in all aspects of production: active listening, improvisations, risk-taking, music creation, dance choreography and techniques, and all that goes into putting a play together. Then, be ready for a fully-staged performance that even King Julien would be proud of! Get ready to “Move It, Move It!”

Session I: June 21–July 8
Half day: 8:15 a.m.–12:25 p.m.
Instructors: Miguel de la Cerna, Cecilia Collar and Jorge Niedas
Cost: Session I $1,100
Grades 10–12
ACT Prep — The Krupnick Approach
For children entering grades 10–12

The Krupnick Approach’s ACT workshops will cover all subjects of the ACT. Subject-level experts will advise your student on test content, strategy, and timing, and instruction will be customized to the workshop cohort’s particular strengths and weaknesses, as measured by regular homework and mock tests. Your learner will have access to The Krupnick Approach’s proprietary ACT test-prep database, as well as a personal student portal to view homework and full-length test results. The workshops will meet virtually Monday through Friday with 3 planned full-length tests taken independently on weekends and regular homework assignments. Students will also have the opportunity to purchase one-on-one instructional time with their subject-level instructors, and The Krupnick Approach will be hosting an introductory Q&A for parents and students prior to the start of the workshop.

**Full Session:** June 21–July 29
**Virtually** from 10 a.m.–noon
**Cost:** Full Session $2,800

SAT Prep — The Krupnick Approach
For children entering grades 10–12

The Krupnick Approach’s SAT workshops will cover all subjects of the SAT. Subject-level experts will advise your student on test content, strategy, and timing, and instruction will be customized to the workshop cohort’s particular strengths and weaknesses, as measured by regular homework and mock tests. Your learner will have access to The Krupnick Approach’s proprietary SAT test-prep database, as well as a personal student portal to view homework and full-length test results. The workshops will meet virtually Monday through Friday with 3 planned full-length tests taken independently on weekends and regular homework assignments. Students will also have the opportunity to purchase one-on-one instructional time with their subject-level instructors, and The Krupnick Approach will be hosting an introductory Q&A for parents and students prior to the start of the workshop.

**Full Session:** June 21–July 29
**Virtually** from 10 a.m.–noon
**Cost:** Full Session $2,800
