2pm 40 min presentation with Jane Barrash, Continuum Center executive director

Questions? bwildeman@uic.uic.edu or jane@continuumcenter.net 612.374.4948

FOR THOUSANDS OF YEARS - FROM EGYPT TO EINSTEIN - HUMAN MINDS HAVE TRIED TO UNDERSTAND THE LIVING UNIVERSE AND THE RELATIONSHIP OF HUMAN CONCIOUSNESS TO IT.

An update of the record breaking 1978 Continuum exhibit at the California Museum of Science and Industry - with over 2M visits in less than a year - then coming to Twin Cities, touring locations including the top of the IDS and Calhoun Square's grand opening. Continuum is an interdisciplinary/multi-cultural exploration of consciousness, the continuity and interconnectedness of life, and our capacities to learn, to be well, and to care for others. Blending images, quotes and research spanning fields, cultures and 1000s of years, the first 34 panels of the 68 panel exhibit are currently on tour.

Rethink “reality” and what it means to be fully human
