Academic Approach

UNIVERSITY OF CHICAGO LABORATORY HIGH SCHOOL
ACT PROGRAM FOR SPRING 2017

Academic Approach is offering an ACT preparation course for Lab students. Each student who signs up for a course will receive the following:

**Highly Customized Classroom Teaching:** Academic Approach classrooms are more efficient and effective than other test preparation classrooms because of the level of customized teaching we achieve through our detailed diagnostic reports and extensive coursework. Diagnostic and practice exams will enable Academic Approach to tailor the teaching to the most common and immediate test preparation needs of the entire class as revealed by a score-report analysis.

**Expert Tutors Mentoring Students:** At Academic Approach, we see test preparation as a teachable moment: an opportunity to engage students in real learning. We, as tutors, are warm, supportive, teaching professionals who know how to make a classroom experience effective in raising scores, academically enriching, and, just as importantly, fun.

**Communication and Support:** At Academic Approach, we understand and appreciate that, in order for our programs to succeed, parents often require information and guidance. Our local directors supervise all programs and insist on their quality; they alert you to absences, offer access to online score reports, and provide you with all the support you need along the way.

**Signing Up:** If you would like to sign up for the course, please call the Academic Approach office at 773.348.8914 and ask to speak to a member of the School Programs staff.
Schedules:

Diagnostic Test: Please call the Academic Approach School Programs office to sign up for one of the below options:

<table>
<thead>
